

THE PET OWNER'S ULTIMATE CHECKLIST FOR RAISING A PANDEMIC PUPPY

EXPOSURE TO DIFFERENT SURFACES, SIGHTS, AND SOUNDS

- If your puppy only walks on carpet and grass, imagine how exciting sand, gravel, or even dirt will be!
- Garbage trucks, bicycles, stoplights, skateboards, sirens, birds. These are just a few of the things your puppy can see and hear on short walks around the neighborhood.

EXERCISE!

- Endorphin release helps your puppy, too! And the chance to take in new sights and sounds expands their bubble.

MENTAL STIMULATION-- GAMES DEVELOP PUPPY BRAINS

- Our favorites are:
- Snuffle mats
 - Training games
 - Puzzle toys
 - Stuffed Kong toys

ONLINE TRAINING-- GET EXPERT ADVICE ON HOW TO MAKE YOUR DOG A GOOD CITIZEN

- Learning new behaviors makes your dog confident and happy.
- Get real-time correction for you and your puppy.

ALONE TIME SO YOUR DOG CAN LEARN TO BE INDEPENDENT

- "In a codependent relationship with my dog" is not a healthy status!
- Your puppy will need to be able to confidently separate from you.

MEET OTHER DOGS

- Get-togethers can be done with safe social distancing measures.
- Choose healthy, fully vaccinated, well-behaved dogs as playmates.

MEET NEW PEOPLE

- This will pay off when they go to puppy daycare, the vet, and the groomer.
- Every new person met expands your puppy's world a little.

★ Bonus points for meeting new people who look or sound different from you, wear hats, uniforms, etc.

HAVE QUESTIONS ABOUT YOUR PUPPY'S OVERALL HEALTH?

We'd love to chat about your new family member!
